

## Eagle Form - Pluma

### Alteration

Level: 5

Range: 0

Components: S

Casting Time: 3

Duration: Special

Area of Effect: The caster

Saving Throw: None

The caster can polymorph into the body of an eagle. Although he retains his own mentality, hit points, and Hit Dice, the caster cannot speak, cast spells, or do anything else that is beyond the bounds of his avian form. However, he can fly, and his vision is exceedingly keen - perhaps 10 times the acuity of his human eyes.

Notes: Common for Maztican pluma masters and Eagle Knights; unknown by others.
