

Flasbpuff - Geisya

Alteration

Level: 2

Range: 40 yds.

Components: S, M

Casting Time: 2

Duration: 1 rd./level

Area of Effect: Cloud, 2 x 2 X 2 ft.

Saving Throw: None

The wu jen throws a pinch of white powder into a burning fire (such as a brazier), which causes a brilliant flash and a cloud of smoke. If a blinding effect is desired by the wu jen, onlookers are blinded for 2-5 rounds if a save vs. wands is failed; the wu jen is unaffected by the flash.

The cloud of smoke can be any color the wu jen desires, and lasts for the full duration of the spell. This smoke can be used to form any simple, two-dimensional image the wu jen concentrates on. The painting proficiency allows the wu jen to create instant artwork that dissipates at the end of the spell.

Notes: Common for geisya; uncommon for wu jen; virtually unknown elsewhere.
